REQUEST FOR QUALIFICATIONS (RFQ)

Build Baton Rouge (“BBR”), a quasi-public agency, is soliciting proposals in the form of written statements of qualifications from Roofing Contractors which currently perform or are qualified to perform full roof replacement and/or repair services for the Roof Reset program. All submissions and required documentation must be submitted to BBR by 4:00 PM on Monday, July 22, 2019.

Questions regarding this Request for Qualifications (RFQ) should be directed in writing to BBR, Tasha Saunders at tsaunders@ebrra.org no later than July 12, 2019. Responses to all questions will be posted on the BBR website (www.ebrra.org) no later than 5:00 PM on June 16, 2019.

I. Background

Build Baton Rouge is the Redevelopment Authority of East Baton Rouge Parish and was created by the 2007 Louisiana Legislature as a separate political subdivision of the State of Louisiana with East Baton Rouge Parish as its jurisdiction. Governed by a five-member Board of Commissioners appointed by the Mayor-President, the Baton Rouge Area Foundation, and the Baton Rouge Area Chamber of Commerce, our mission is bringing people and resources together to promote equitable investment, innovative development, and thriving communities throughout all of Baton Rouge.

BBR entered into a Cooperative Endeavor Agreement (CEA) with the City of Baton Rouge, Parish of East Baton Rouge (“City-Parish”) and the City of Baton Rouge, Parish of East Baton Office of Community Development (OCD) to provide grant administration services for the City-Parish’s U.S. Department of Housing and Urban Development (“HUD”) Community Planning and Development (CPD) grant programs, specifically the Community Development Block Grant (CDBG) program and the HOME Investment Partnerships (HOME) program. Additionally, BBR administers other grants programs operated with private funding, federal funding and/or City-Parish funding, for example, but not limited to CDBG-DR.

II. Project Summary

The mission of the Roof Reset Program is to serve East Baton Rouge residents by repairing damaged roofs using CDBG funds. The budget for Phase 1 of the program is $1 million. Program participants must meet basic ownership, occupancy, income, and inspection guidelines. Additional phases will be designed and implemented based on community need and available budget.

The purpose of this RFQ is to develop a pool of prequalified contractors to support the Roof
Reset program. BBR seeks to select up to seven (7) roofing contractors to participate in this pool; however, based on the number of qualified responses, this number may increase or decrease. Contractors will be assigned work based on availability, contractor service area, and staff expertise. Services will be provided during the period of July 29th through October 31st, 2019.

BBR is responsible for conducting a roof system inspection prior to assignment of work to a contractor. A detailed scope of work will be provided for each property as the properties are inspected. From time to time, during the performance of work, the contractor may identify additional items that need addressing in order to properly complete roofing system repairs and/or replacement. These items will be evaluated by BBR on a case-by-case basis by the assigned project Construction Manager.

Contractors will be responsible for residential roofing replacement and/or repair, inclusive of 30-year architectural shingles, roof felt, roof jacks, drip edge, and roof vent turbine. Contractors and subcontractors will be required to supply a one (1) year warranty for all work completed and materials provided. All materials must be new and of the best quality (or as specified), and the labor shall be performed by qualified workers in accordance with usual and customary standards and practices of the trade, unless otherwise specified in the scope of work.
